## Features for meeting rooms

### Designed for Every Meeting Space

Whether in-person or hybrid, Panora enhances collaboration in all VC environments with easy-to-use functionality.

### Optimized for Microsoft Teams Front Row

Take full advantage of Front Row's 21:9 layout for more natural, engaging virtual meetings.

### Seamless Connectivity

Integrate effortlessly with your devices, software, and cloud applications for a truly connected workspace. screen to disable download access'

### Smart Integration

Compatible with major control and automation tools, making setup and operation effortless.

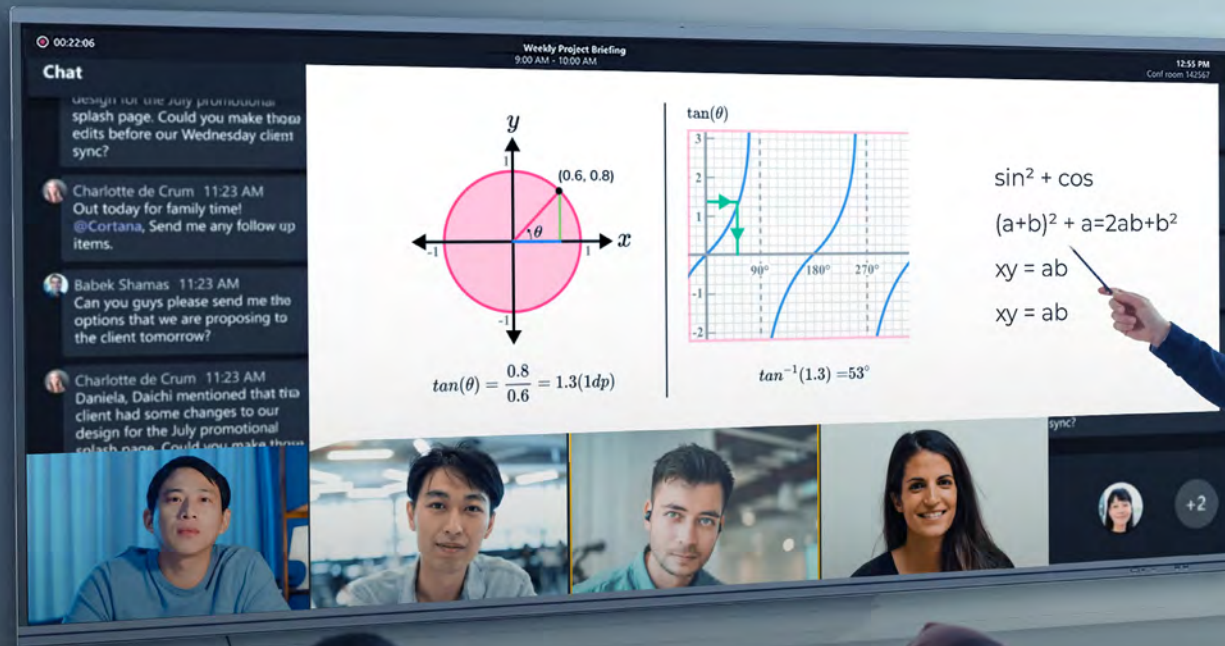

### Intuitive Interaction

Touch, swipe, and engage with ultra-responsive technology for a fluid, natural user experience.

### Immersive Experience

Bring content to life with stunning clarity, vibrant colors, and ultra-wide cinematic views.

## Increased Screen Real Estate, Ideal For Any Learning Environment

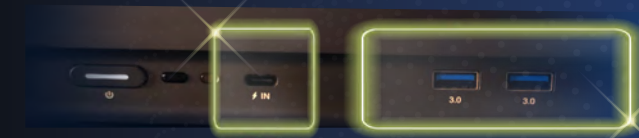

A 21:9 aspect ratio interactive display is the perfect addition to any learning environment, offering a wider, more immersive canvas for collaboration and engagement. This ultrawide format allows educators to display multiple content sources simultaneously—whether it's side-by-side lesson plans, live video feeds, or interactive whiteboards—enhancing multitasking and accessibility. Students benefit from a more natural viewing experience with reduced eye strain and a panoramic workspace that fosters creativity and participation. Ideal for hybrid and in-person learning, a 21:9 display transforms classrooms into dynamic, future-ready spaces that maximize productivity and interactivity.

# Features

# 21:9

## Wider Perspective

Maximize your workspace with an expansive 21:9 display, perfect for multitasking, video conferencing, and creative workflows.

## Versatile Connectivity Options

Maximize flexibility with multiple input ports:

- 4x HDMI (one supporting 5K)
- USB-C with charging capabilities
- 6x USB ports, including top access points for convenience.

## Stunning 5K Visuals

The Panora offers advanced display technology which ensures a sharp, bright, and vibrant image with a 5120 x 2160px resolution. The ultra-high pixel density

## Anti-Glare Screen for Uninterrupted Viewing

- Panora screen technology minimizes reflections, ensuring optimal visibility even in bright indoor lighting or natural daylight, eliminating distractions from external light source solution.
- The ultra-high pixel density and 21:9 aspect ratio provide unmatched clarity.
